

University of Miskolc, Hungary

Faculty of Earth Sciences and Engineering

Earth Science Engineering masters program

Application Criteria

The Faculty of Earth Science and Engineering at University of Miskolc seeks students who completed an earth-science-related BSc program and who possess good command of English, and a strong motivation to study.

Applicants are required to be over the age of 18 and preferably under the age of 30, when registering to the university.

Admission requirements:

- Bsc in earth sciences or earth science engineering degree, CGPA 60% or higher,
- Language proficiency: TOEFL internet based test minimum score 75 or identical language exam

Application Procedure

The application period for the MSc programmes 2014-2016 closes on 1 May 2014. This is the last date on which your complete hard copy application may arrive at Dean's Office, Faculty of Earth Sciences and Engineering (address see below), and not the last date on which you may mail your application. Incomplete applications and applications submitted by e-mail will not be processed.

The University can only start processing your application once it has received these hard copy documents.

- Application Form (signed)
- Copy of BSc (or identical) diploma
- Transcripts of records from your previous degree
- copy of English language certificates

Unofficial transcripts may be submitted, but acceptance into the program will be on condition of receipt of all official transcripts or attested copies.

- Two Letters of Recommendation written in English. Letters from high school or university professors are preferred.
- Motivation letter in which you elaborate on your motivation for joining the MSc program.
- Curriculum Vitae (Resume) in English.
- Copy of passport or ID card with your personal data.
